RE: Food Contact Packaging Letter of Guarantee

This office has on file a letter stating the material used to produce the paper "Setterstix" supplied by Gold Medal Products Company are FDA approved.

All "Setterstix" sizes that Gold Medal products supply are approved for food contact. The components used in the manufacture of these sizes meet the requirements of 21CFR176.170 and 176.180 for food contact.

On file a letter stating that the "Setterstix" supplied meet CONEG standards for heavy metals content. Analysis of the materials is at the supplies manufacturing facility, for heavy metals cadmium, Chromium (total), Lead and Mercury, showed less than 30 ppm. This confirms to the CONEG requirements of less than 100 ppm based on the finished product.

On file a letter stating that the "Setterstix" are dioxin free, elemental chlorine free, and that no OBA (Optical Brightening Agents) is added during the manufacturing process.

On file a letter stating there are no animal products added to the material process.

Likewise, all finished goods comprising each shipment or delivery made by Gold Medal Products Co. are in compliance with the U.S. Food, Drug and Cosmetic Act.

I certify that the statements listed above are true to the best of my knowledge.

Sincerely,

Todd Sunderhaus
Food Regulatory & Science Technology Manager
