DECLARATION OF COMPLIANCE FOOD COMPATIBILITY

Date 14-01-2021

Product(s): POLYPROPYLENE CUPS.- All references, transparent, white, blue and printed cups

We declare that the products indexed above have been produced in Nupik Internacional, S.L.U.(manufacturer) with polypropylene plastic and tested according to our internal Quality Procedures and they comply with the relevant requirements stated in the Regulation framework CE nº 1935/2004/EU, 10/2011/EU and amendments and they are authorised to be utilized with foodstuffs.

Specifications on the use of the article(s):

.- Types of food intended to come into contact with the material:

Acid and alcoholic food.- Simulants used: Acetic acid 3%, Ethanol 50%

.- Time and temperature of treatment and storage in contact with the food:

10 days, 40° C
2 hour, 70° C

.- Ratio of food contact surface area to volume used to establish the compliance of the article:

9,2 dm²/Kg

The product(s) has(have) been tested by an external accredited laboratory. The tests have been completed according to rule UNE EN 1186-9 and 1186-14 about overall migration test methods for materials and products in contact with food.

The following substances subject to limitations and/or specification are used in the above mentioned products:

Name	Límit
1,3,5-Tris(3,5-di-terc-butil-4-hidroxibencil)-1,3,5-triazina-2,4,6(1H,3H,5H)-triona (ref 95360)	5 mg/Kg
Cis-1,2-ciclohexanedicarboxylic acid salts (ref 45704)	5 mg/Kg
Phthalic acid, dibutyl Ester (ref 74880)	0,3 mg/Kg
Zinc	5 mg/Kg
Aluminum	1 mg/Kg

Dual use additives are used in the manufacture of these products:

Glycerol monostearate 90%/Titanium dioxide 40-60%/stearic acid and derivatives <0,1%

The products have been manufactured in accordance with the relevant requirements of Commission Regulation EC 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food.
